The facts your procurement will ask for

Entity. Atrium Events Pty Ltd, ABN 78 698 628 027, trading as C2C Event Hire. Invoices are issued by the company to your organisation.

Public liability. $20 million. The certificate of currency comes with the quote if you ask for it.

Quotes. Itemised: structure, flooring, lighting, furniture, tableware and catering gear on separate lines, with the bump-in and bump-out windows and the ground and access notes written on it.

The bump-in day. Written into the booking. If the crew isn't on site on that day, we refund the installation. Exclusions: site not ready or access blocked, ground unsafe, weather that makes installation unsafe, road closures or declared emergencies, and time changes you ask for. This is in addition to your rights under the Australian Consumer Law.

Installation. Our own crew. Pegs on grass or weights on hardstand (concrete, pavers, decking), and the structure is up before anyone else's gear comes in. Packed down inside the bump-out window.

Base. 2 Bayldon Drive, Raleigh, between Bellingen and Urunga, ten minutes from Coffs Harbour. 25 years on the Mid North Coast.

What we supply

- Marquees in 3, 4, 6, 10, 12 and 15 m widths, lengths in 3 m bays; walls in white, half-clear or full clear, or none.
- Timber flooring on a levelled steel sub-frame (3, 6 and 10 m widths, whole marquee), and a 5 × 5 m dance floor.
- Festoon, fairy and LED lighting, outdoor runs to 80 m.
- Round tables for 8 and 10, trestles, white padded folding and stacking chairs, dry bars, bar stools, wine barrels.
- Crockery and cutlery for every seat, a full glassware range, serving ware.
- BBQs, roaster ovens, bain maries, hot boxes, urns, coffee makers, pie warmers, fryers, ice chests, patio heaters.

Not ours, arrange separately: power and generators, toilets, cool rooms, PA, staging.

How to brief us

Dates and windows. Event dates, bump-in window, bump-out window.

Site plan. A marked-up aerial is fine: where the structures go, where the trucks come in.

Ground. Grass, hardstand, or both. Hardstand takes weights, and weights are a line on the quote.

Access. Gate width, truck route, distance from where the truck stops to where the marquee goes.

Numbers. People, exhibitors, seated or standing, tables per marquee.

Power. Whether there's power on site and where.

The kinds of day we've done

Agricultural shows and field days, folk and Celtic festivals, touch football championships and sporting carnivals, university open days and school anniversaries, council community days, race days, product launches and staff functions, and multi-day events for thousands of people.
